

CASA di LUSO

CARE HOME

## WELCOME TO CASA di LUSSO

**Situated in the northern outskirts of Bridgwater with excellent links to the M5, Casa di Lusso is a modern, purpose built home developed with our residents in mind.**

Casa di Lusso offers comprehensive and compassionate care for up to 66 residents, including Residential, Specialist Dementia, Nursing, Palliative and Respite Care.

Set within acres of tranquil grounds, our landscaped gardens are designed to be dementia-friendly, while providing a safe, relaxing space. Stunning fountains, lots of seating options to enjoy time al fresco with family or friends, and raised beds for those green-fingered residents who wish to tend to flowers or plants make it one of the most favoured areas of our home.

Internally, Casa di Lusso boasts nine living areas, each with its own kitchenette, dining area and activities space. Residents can catch a classic movie in our Cinema Room, enjoy a cuppa in our Community Café, or relax in our Garden Room or Sun Room with a good book.

Casa di Lusso's en suite bedrooms are tastefully decorated and elegantly furnished, with residents invited to personalise their space to truly make it feel like home. Some larger rooms are located on the top floor, with the majority enjoying their own private balcony.

## A WARM WELCOME AWAITS

All individual care needs are provided through personalised care planning and collaboration with residents and their families.

Our holistic approach to care incorporates nutrition and hydration and our onsite chefs and kitchen team are proud to cook nutritious, delicious meals daily, catering to all dietary needs and preferences.

There's always something going on at Casa di Lusso, with a varied activities programme and regular day trips in our Mini Bus, locally and further afield.

We're proud to be a welcoming home where residents are relaxed, happy and fulfilled: a home like no other in our local area.

*We look forward to welcoming you*
